

Nursery Provision

At Ninelands Primary School Nursery our aim is to embed a life-long love of learning and positive learning behaviours in a safe and engaging environment.

Your child's learning will follow their personal interests closely and be adapted to meet their individual needs. We offer a high standard of care and celebrate every child's uniqueness, believing this is essential in encouraging self-belief, independence and good emotional wellbeing.

PROVISION

Our Nursery is run by an experienced team of professional staff who have a wealth of knowledge of Early Years.

The Nursery works closely with our Reception class at Ninelands to ensure every child is 'school ready' – whichever school that might be.

We are passionate that learning is not confined to the indoor classrooms and are extremely fortunate to have large outdoor learning areas. We consider indoor and outdoor spaces to be a valuable tool to support learning and utilise these to encourage exploration and fascination of the world around them.
